Yes, you can! No previous dancing experience is necessary.

The steps are taught slowly so that you will feel comfortable with the learning experience. Experienced dancers are there to help you.

All dances are cued. As Jean teaches you the various steps within a waltz or two-step, she puts them together with music and tells you when to do each step as the music plays.

Use what you learn at social dances. Whenever you go to a dance and hear a waltz or two-step, you'll be able to get right up on the dance floor with your newly learned steps.
